

KYC Verification SOP (Final Version)

Title:

KYC Verification SOP

Objective:

To ensure accurate customer identity verification in compliance with RBI guidelines.

Scope:

Applies to all new customer account openings across retail banking.

Procedure:

1. Collect valid ID proof (Aadhaar, PAN, Passport, Voter ID).
2. Verify authenticity using RBI-approved verification tools.
3. Cross-check customer details with internal system records.
4. Record verification outcome in compliance database.
5. Approve or reject account opening based on results.

Responsibilities:

- Compliance Analyst → Verify documents
- Operations Team → Collect and upload documents
- Manager → Approve/reject final account opening

Documentation:

- Copy of ID proof stored securely
- Verification log maintained in compliance system

Regulatory Basis: This SOP is prepared in accordance with RBI Master Directions on KYC (updated 2023).
